

L480RC Issue 6
Halogen, Remote
Control, Variable Speed

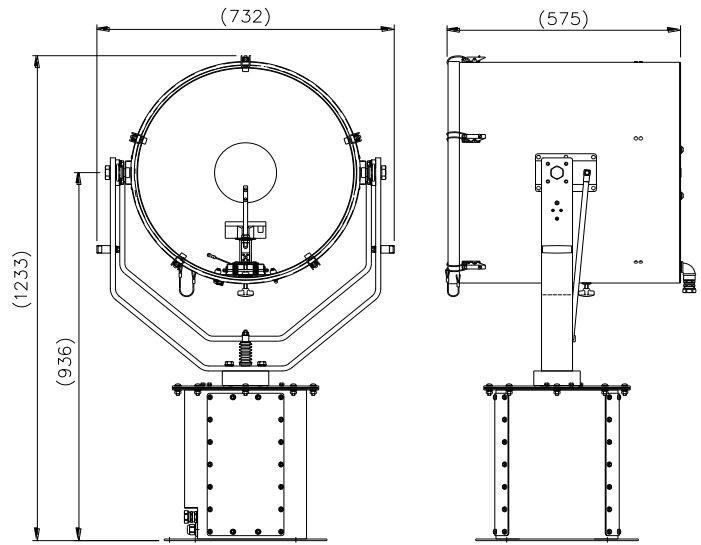

APPLICATION

The new FRANCIS range of variable speed Remote Controlled Searchlights incorporate the design features required to successfully operate searchlights in the most demanding product operating environments on land and sea.

Francis Searchlights have developed and improved all remote controlled searchlights across the range still further by adding full variable speed, a new modern and sleek joystick control panel, using membrane and LED technology, offering RS485 interface and an auto home position setting, all at no extra cost.

The L480RC Range is a high quality large sized range remote control searchlight.

SPECIFICATION

- Tungsten Halogen light source
- Toughened front glass.
- Parabolic formed aluminium reflector
- Constructed from stainless steel & marine grade materials
- Powder coated and stove enamel paint finish.
- Spill rings to prevent unwanted glare and stray light
- Remote pan rotation 385° with tilt /elevation control ±40°.
